Attainment of the program outcome-2018-19

In order to help students succeed in their program outcome and course outcome, colleges have established Student Welfare Committees. A mentor-mentee scheme for students and teachers is implemented under the committee. In this, the full-time professors of the college are given the responsibility of all the students entering the college through mentors who have the primary responsibility of counseling all the students and monitoring their performance in the program out come and course come. Every college student has a mentor book, which is safeguarded and contains a record of their performance during the year. During teacher-parent conferences, each student's performance is reported to the parents.

The college has set up remedial coaching classes, which allow it to assess and categorize the students who are admitted at the start of each year into two groups: advanced learners and slow learners. By providing additional classes for these students, the college hopes to improve the academic performance of all of its students. Every year, the Student Welfare Committee hosts a workshop on stress management and removal for incoming college students. A doctor is invited as a resource person to offer guidance to the students. The college organizes these kinds of workshops to help students cope with the stress of taking different tests and to offer advice. The students are making progress through the committee's actions, and the college has chosen to award scholarships to eighteen students who pass the exam and receive first place at the conclusion of the year. Numerous activities are carried out on behalf of the college by each department in an effort to improve the quality of education for the students.

Ref. No. These activities include student counseling, preparation for competitive exams, student class seminars, group discussions, poster presentations, exhibitions, study tours, field and research projects, guest lectures, unit tests, home assignments, oral presentations, use of ICT, remedial coaching, home assignments, and debates. The college has a committee called the Syllabus Competition Report Committee, and twice a year, the head of the department receives the completion certificates from the professors who have taught and completed the course in accordance with the syllabus. Following discussion, the principal gives instructions to the professors whose performance is subpar. The college has a committee for student feedback, which gathers input from students regarding teachers' performance in teaching and completing the course. The committee analyzes this input in front of the principal. This involves calling the academics who are performing poorly, giving them vocal instructions, and monitored on their work. The college has a placement unit, and it organizes recruitment drives either on and off campus at least twice a year. Students at the institution receive seven days a year of police and military recruitment training under the Gymkhana department at the college in collaboration with various private organizations. The college has an ecosystem for innovation and a research committee. It is through this committee that students are sent to the university's innovation festivals such as, AIVISHKAR MOHASTAV, as well as for research papers and posters presentations. In an effort to promote attendance at seminars and conferences, a few college students in the physics department took first place in a poster presentation at a Bhabha Atomic Research Center conference. As the students' progress was reviewed using all of the aforementioned activities. it became clear that the students of the college are achieving success.

Student Welfare Committee -2018-19

There is a Student Welfare Committee in the college and under this committee many measures are planned from the point of view of the interest of the students. Like every year, mentoring and counseling (mentor-mentee scheme) were done this year in which the responsibility of all the students in the college is given equally to all the professors present in the college and its mentorship register is maintained in the college. All these things are done by the mentor from time to time to solve any problems of the professors to whom the student is assigned and to meet his basic needs as well as his examination performance for the year. Small and big problems of the student who is adopted are solved by the parent teacher (mentor), if there is a very big problem, it is handed over to the committee. A Two-day workshop was organized on the topic of stress management in the College on behalf of the Student Welfare Committee, in which all the adopted students of the college under the Parent Scheme/mentor-mentee scheme are benefited. In the recent period, many types of stress are faced by the students, for which the need of stress management is urgent for all the society as well as the students, every year a workshop is conducted on the topic of stress management on behalf of this committee. This year the two day workshop on stress management was concluded on 14 th and 15 th December 2018. Remedial coaching classes are also managed under the Student Welfare Committee. Every year, the background knowledge test of the students entering the first year is taken by the department of all the subjects of the college and the result of this test is collected and divided into two parts, one part for advanced learners and the other for slow learners students. A separate time table has been prepared for students of both types and arrangements have been made for them to take separate classes. A health center has been established in the college under the Student Welfare Committee and the facility of this health center has been provided free of cost to all the students, professors, teachers and other staff of the college.

Annual Report: 2018-19 Students' Welfare Committee

* Mentar: Mentee and Counseling

the college has developed mentoring system for the students to check their progress and to guide them. Total numbers of students of the college are divided and distributed among all teachers facultiwise. The teachers work as mentor ofor the alloted students and guide them. Teachers are mentors and students are mentees. Students take one 'Mentor Book' for each course. They fill up the information and their semesterwise marks in it and take signatures of their mentors in it. The list of mentor-mentees is displayed on the notice board and also given on the college website. At last, after completing final year of the course, students submit their mentor book to the college.

organised two-day workshop on the subject 'stress Management and study Technique' on 14th and 15th Dec. 2018. The chief-guest and resource person was Prof. Dr. Khanapure S. G., Doodhsakhar Mahavidyalaya, Bidri, Dist - Kolhapur. In this two-day workshop, the detailed lectures and discussion on stress management and scientific study technique was done by the resource person. This st workshop was really very beneficial and valuable for students of the college.

* Students Aid Fund and Institutional Schlarship

the college has created 'students Aid fund' for the welfure of students. Some amount is collected in it and it is used for the activities of this committee and for giving scholarship for the meritorious students. The staff of the college collect some amount and contribute it to the students' aid fund for the welfure of students. Also, the college /institution add the same amount, as given by staff, to this college fund.

Through this students aid fund the institutional scholarship Rs. 1000 |- is given for those students who stood first in the class in the university examination during that year. Also, the annual expenditure of the committee as also used through this fund.
